## SINGLE CELL EUROPE 2018

September 19 - 21, 2018  
Prague, Czech Republic

## Single Cell Europe Conference

Dear colleagues,

We would like to cordially invite you to the upcoming conference, “**Single Cell Europe**”, which will be held from **20-21st of September 2018**, in the BIOCEV Center, Vestec, Prague.

### Symposium highlights

**Single cell Applications:** Transcriptomics (NGS, microarrays, qPCR), Proteomics, Epigenomics, Imaging.

**New approaches, instruments for single cell analysis:** Collection of single cells and preservation, Quality control, Single cell profiling and subcellular analysis, Data analysis.

**Single cell diagnostics:** Sampling cellular heterogeneity, Non-coding RNA analysis, Circulating tumor cells, Cell-free DNA analysis.

### MagnaMedics is now magtivio

For you as a user of MagnaMedics products, nothing changes besides the brand name. The products can still be ordered through TATAA using the same catalogue numbers.

With the change of branding, we are offering 10% discount on all magnetic bead products from magtivio until September 14th. Use promo code MAG10 to receive your discount.

---

Your routine sequencing just got faster - and  
more cost efficient

Swift Biosciences launches new **Swift 2S Turbo DNA Library Kits**

**SWIFT 2S TURBO DNA LIBRARY KITS**  
The Easiest NGS Workflow for Routine Sequencing

**Highlights**

- **Simple, fast, and reliable**  
Minimal steps and hands-on time with consistent fragmentation regardless of DNA input amount.
- **For many genomes**  
Compatible with diverse genome types of low or high complexity.
- **More applications, one workflow**  
One universal approach for whole genome, exome, and large gene studies.

The Swift 2S Turbo DNA Library Kits offer a versatile solution that streamlines NGS sample preparation of double-stranded DNA on Illumina® sequencing platforms. This technology provides rapid and highly reproducible fragmentation and library construction enables manual and fully automatable library production.

- **Easy to use:** The pre-optimized enzymatic fragmentation and reproducible pipeline simplify library preparation for routine sequencing.
- **Excellent performance:** Swift 2S Turbo offers uncompromised performance for whole genome and exome sequencing.
- **Budget-friendly:** Swift 2S Turbo, a cost effective library prep, can make a big impact without breaking your budget.

Upcoming webinars and courses:

**August 15th:** Genome Webinars  
presented by Swift Biosciences:

**The Cancer Avatar Project:** Using  
Targeted NGS to Analyze Circulating  
Tumor DNA

WEBINAR

S P E A K E R  
Dr. Pierre-Yves Desprez, PhD

## 1 Day Digital PCR hands-on course

FREE OF CHARGE – Courtesy of [STILLA Technologies](#)

**5th September 2018**, Gothenburg, Sweden

TATAA Biocenter, in collaboration with Stilla Technologies, are very pleased and honored to organize a digital PCR course in Gothenburg, Sweden.
