

Train Smarter with TATAA

with a **FREE** NutriFitness Test by Life Genomics!

Personal dietary advice, lifestyle and physical activity recommendations based on information about your genetics that will help you to a more active and healthy life.

Analysis features include:

- Personal macro and micro nutrient requirements
- Your response to different types of exercise
- Your proneness to:
 - Weak bones
 - Obesity
 - High levels of cholesterol and blood sugar
- Your individual muscle type and activities best suited to them
- Sensitivity to:
 - Alcohol
 - Caffeine
 - Lactose
- How your genetic makeup can affect your appearance

How do you qualify for your free test?

- Simply spend 50,000 kr or more with TATAA between September and October 2018

**The offer is valid between September and October 2018 and cannot be combined with other offers or discounts. Available only to customers in Sweden and published in Swedish. Accumulated and single orders of over 50,000 kr qualify for 1 test. Subsequent orders over 50,000 kr during this time period are available to receive further tests. Order directly from TATAA Biocenter in our webshop or by e-mail to order@tataa.com.*
