

Liquid biopsy analysis: Basic science via translational research to clinical use

Liquid biopsy analysis is an emerging field of research with the potential to be clinically implemented in the near future. Currently, several efforts are ongoing in Gothenburg and to further stimulate the development and collaboration opportunities within the field of liquid biopsy analysis, we invite you to participate in an interactive seminar day.

Date: 6 Feb 2019, 8:45-16:10

Location: Sahlgrenska Universitetssjukhus, Hjärtats Aula, Vita Stråket 12, level 1

Registration at: <https://goo.gl/forms/TCUZ9kC2GHAEvRgz1>

The seminar day is free of charge, including lunch and coffee with refreshments, for people with confirmed registration. However, no-attending person that signed up for the seminar will be charged (1000 SEK).

Organizing committee:

Anders Ståhlberg, Sahlgrenska Cancer Center, GU, anders.stahlberg@gu.se

Anne Ricksten, Sahlgrenska University Hospital, anne.ricksten@vgregion.se

Joakim Håkansson, RISE, joakim.hakansson@ri.se

This effort and seminar day is supported by the Wallenberg Centre for Molecular and Translational Medicine, Gothenburg, VINNOVA and Västra Götalandsregionen

Program

8:45-9:00 Welcome and introduction (A. Ståhlberg GU, A. Ricksten SU, Y. Bogestål RISE)

9:00-10:15 Session I (8-10 min talks)

K. Sundfeldt, Ovarian cancer

L. Fogelstrand, Blood cancers

A. Edsjö, the Lund clinical effort

B. Linderholm, Breast cancer

D. Lundstedt, Radiotherapy

L. Nilsson, BioBank Väst

10:15-10:45 Coffee break

10:45-12:00 Session II (8-10 min talks)

H. Fagman, Genomic Medicine Sweden

Y. Bogestål, RISE

G. Kanter Smoler, NIPT

G. Johansson, Immuno-Seq

J. Hedman, Forensics

12:00-13:00 Lunch

13:00-14:15 Session III (8-10 min talks)

L. Ny, Melanoma

KW. Tang, Epstein-Barr virus associated malignancies

M. Kubista, TATAA Biocenter

J. Böhmer, Transplantation medicine

M. Berndsen, GIST

14:15-14:45 Coffee break

14:45-16:00 Session IV (8-10 min talks)

M. Dalin, Childhood cancers

Y. Wettergren, Colon cancer

C. Lässer, Extracellular vesicles

R. Norden, Virology

A. Ståhlberg, Translational Genomics Platform

16:00-16:10 Final remarks (A. Ståhlberg GU, A. Ricksten SU, Y. Bogestål RISE)
