

Single Cell Europe 2018

Applications | New approaches | Diagnostics

The first specialized meeting for single cell analysis in Central Europe

You will hear presentations from world leading scientists from various areas in the single cell field, and innovative companies exhibiting the latest products and technologies for single cell analysis. You can join hands-on training on single cell expression profiling and get the opportunity to test state-of-the-art technologies.

It is also an excellent opportunity for networking and finding collaborators in this rapidly developing field.
