Find All the Tools you Need for Your SARS-CoV-2 Research and Viral Detection in One Place

- Swabs
- Extraction Kits
- Test Kits
- Lab Testing
- Targeted Sequencing
- Custom RNA synthesis

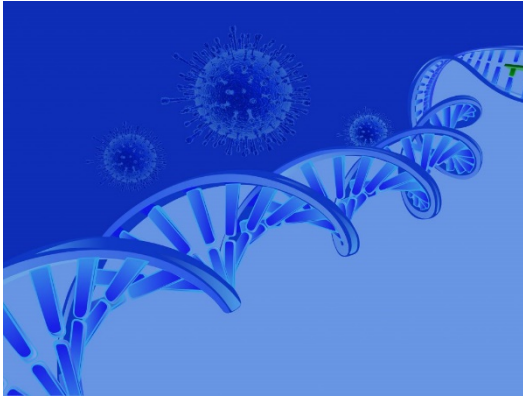

Popular products that are available now!

TATAA GrandPerformance SARS-CoV-2 Screening Kit

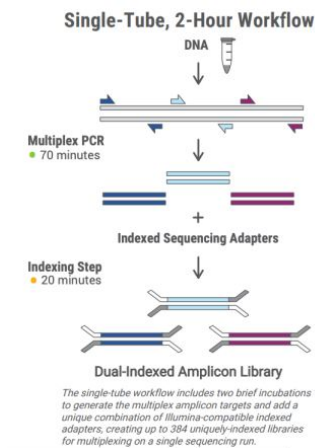

- Robust 1-step RT-qPCR workflow
 - Controls included
 - Reliable
 - Flexible
-

myBaits Expert SARS-CoV-2

- NGS target enrichment
- Compatible with different sequencing platforms
- Free kit offered for academic research*

*Shipping fees apply. Limited to one kit per lab.

Swift Amplicon SARS-CoV-2

- Offers a robust NGS workflow
- Leverages patented multiplex PCR technology
- Enables library construction from 1st-strand or 2nd-strand cDNA

- **Remdesivir**, which shows promise treating COVID-19, is available from TATAA Biocenter **for research use only**.

- Under the coordination of Danish Technical University a consortium including TATAA Biocenter has been awarded H2020 grant to develop rapid diagnostic tests for COVID-19. TATAA's role is to validate the new test methods and benchmark against [TATAA GrandPerformance SARS-CoV-2](#) Screening kit, which is a highly optimized test based on qPCR. [Read more>](#)

TATAA Biocenter and Gendoktorn Increase SARS-CoV-2 Testing Capacity In Sweden

In particular, we recommend testing:

- Individuals returning from sick leave
- Health and elderly care workers
- Individuals planning to visit elders
- Travelers to countries requesting negative SARS-CoV-2 test

For testing, please contact our partner [Gendoktorn](#). They handle sample collection, reporting to authorities, follow up in case of a positive test result and they can issue certificates in case of negative test result. [Read more>](#)

- [Laboratory Assistant](#)

TATAA Biocenter AB is a leader in Europe in RNA, DNA and protein analyzes with qPCR, NGS and microchip technologies. We offer global molecular education programs, accredited analytical services to industry and technical support to academic and state laboratories. We have developed several own products for qPCR analysis, especially in

quality assurance, and supplemented with products from other suppliers. Today, we have one of the market's most complete range of qPCR and NGS products in Sweden with superior technical and application support. We are now looking to strengthen our team in a variety of areas and we look forward to your application.
